Subject: RE: R6 Texas Ozone RFP - potential SSM issue

So I have a conflict with the meeting and probably won't be able to attend.

I do have knowledge of SSM in Texas and RFP Plans from Texas. So I am going to offer the following thoughts.

Ex. 5 Deliberative Process (DP)

Guy, Michael,

OGC seems to think that the SSM SIP call for Texas has some implications for our action on the Houston RFP. They have a call scheduled for Thursday. I need someone knowledgeable about SSM on the call to address the potential issue.

Hi all,

Karen was reviewing the final action to approve Texas' RFP SIP for the 2008 ozone standard and realized we may want to consider how our response to the comment about emissions from SSM events in the emissions inventory is related to the agency's forthcoming SSM policy change. Specifically, we might want to hold timing of this action until after R6 withdraws the SSM SIP Call for Texas.

This call is to discuss the SSM issue with R6, ORC, OGC, and OAQPS.

Thanks,
Liz
